***Election/Restrictions***

1. Applicant's election with traverse of Group III, Figures 6-7c in the reply filed on 8/23/05 is acknowledged. The traversal is on the ground(s) that the invention shown in figures 10-11 are directed towards the same invention, i.e. a lace end tightening device and the claims are generic to such. This is not found persuasive because the specific devices shown in figure 10-11 are not the same and are patentably distinct from the end tightening device shown in figures 6-7c in that the device shown in figures 6-7c do not include a plurality of end stations or a serpentine path (as claimed in claims 40 and 41 which are hereby noted as not being generic and are not included in the Examination because they do not read on the electe embodiment shown in figures 6-7c).

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-36 and 40-50 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8/23/05.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 37-39 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Donnadieu (5537763).

Art Unit: 3728

Donnadieu shows a shoe comprising a lace (7), a guide system (9), and a twist lace end tightener (11) as claimed.
